Secretary Pflugbeil suggests we follow the Animal Control Officers Association of Massachusetts and create our own Occupational Exposure Card. It may be a card that is also our CMACOA membership card. This card may be presented to healthcare providers and notifies them the cardholder works with animals and is likely to be exposed to certain Zoonotic diseases not considered routinely in the diagnosis of infectious illness. A copy of the card will be shared with the board to see if we want to work on this
